

Integrated Disease Surveillance Programme (IDSP)

Integrated Disease Surveillance Project (IDSP) was launched by Hon'ble Union Minister of Health & Family Welfare in November 2004, and in J&K it was launched in 3rd Phase in 2007. It is a decentralized, **State based Surveillance Program**. It is intended to detect early **warning signals** of impending outbreaks and help **initiate an effective response in a timely manner**.

Surveillance Units have been established in all districts. **Rapid Response Teams (RRTs)** have been framed in all the districts. Whenever there is a rising trend of illnesses in any area, it is investigated by the Rapid Response Teams (RRT) to **Diagnose** and **Control** the outbreak. **Data Analysis** and **Actions** are being undertaken by respective **State/ District Surveillance Units**.
