

Safe Dialysis... Better Life

ADVISORY FOR DIALYSIS CENTRE

1. RECEPTION AREA: Display of following should be prominent and visible.

- a) Rate list of the procedure.
- b) Timings of dialysis.
- c) Name/Phone No./ Regn. No. of Incharge Nephrologist.
- d) Name/Phone No. / Regn. No. of Incharge Medical Officer.
- e) Dialysis licence / Regn. and Infection control certification.
- f) Address for registration of complaints.

2. DIALYSIS AREA:

- a) At least 6 sq metre area for each dialysis bed.
- b) Dialysis is a very critical procedure and needs hygienic settings.
Dialysis area should be clean/ noise free /and as per guidelines.
There should be zero tolerance for dust/trash/open sharp
Instruments/ blood spillage in surroundings/ noise/ biomedical
waste mishandling, as they are life threatening for the patient.
- c) 20 - 30 min compulsory wash of HD machines is mandatory between any
HD procedure as less wash duration may expose patient to
number of lethal infections.
- d) One hour chemical wash with F-HDIS - MR-HR Mode - 50 min of HD
machine is mandatory at the end of the day.

- e) ER cart/ 30 ER Drugs are mandatory at dialysis centre.
- f) ER cart with monitor, defibrillator and ECG machine is also mandatory for each centre.
- g) Oxygen facility and ambulance service are also very important.

- h) Mopping of floor with 1:100 Na-hypochlorite is essential during daily cleaning. Blood spill and surrounding area needs Na Hypo mopping on daily basis.
- i) Centre should maintain Hepatitis vaccination record properly.
- j) Patient should be educated about diet/procedure and fistula care.
- k) Baseline biochem tests should be ensured every month.
- l) HCV/HBV/HIV serology should be ensured every 3 months.
- m) All the advisories should be checked when using a different machine
- n) Centre should monthly check microbiology samples of floor/ RO plant/ machines and should be prominently displayed.
- o) Fumigation should be ensured every week and record maintained.
- p) Separate HD Machine for Serology positive patient is mandatory.

These compulsory points are very vital for every dialysis patient and can ensure his/her long term and complication free management. Any deviation from these prerequisites is a risk to the patient and his family alike.

In case of any complaints regarding the above advisory, please contact DD Dentistry/ Nodal Officer PMNDP at..... 8716888000

Register your complaints immediately to ensure implementation of above at the Dialysis centre. We aim to contribute to the betterment of healthcare for dialysis patients of the region.

Your awareness is vital for effective and safe dialysis of our patients.
